

MEET THE TEAM

Your life has a management team of nine, and they take turns running it. None of them asked you first.

MEET THE TEAM, CONTINUED

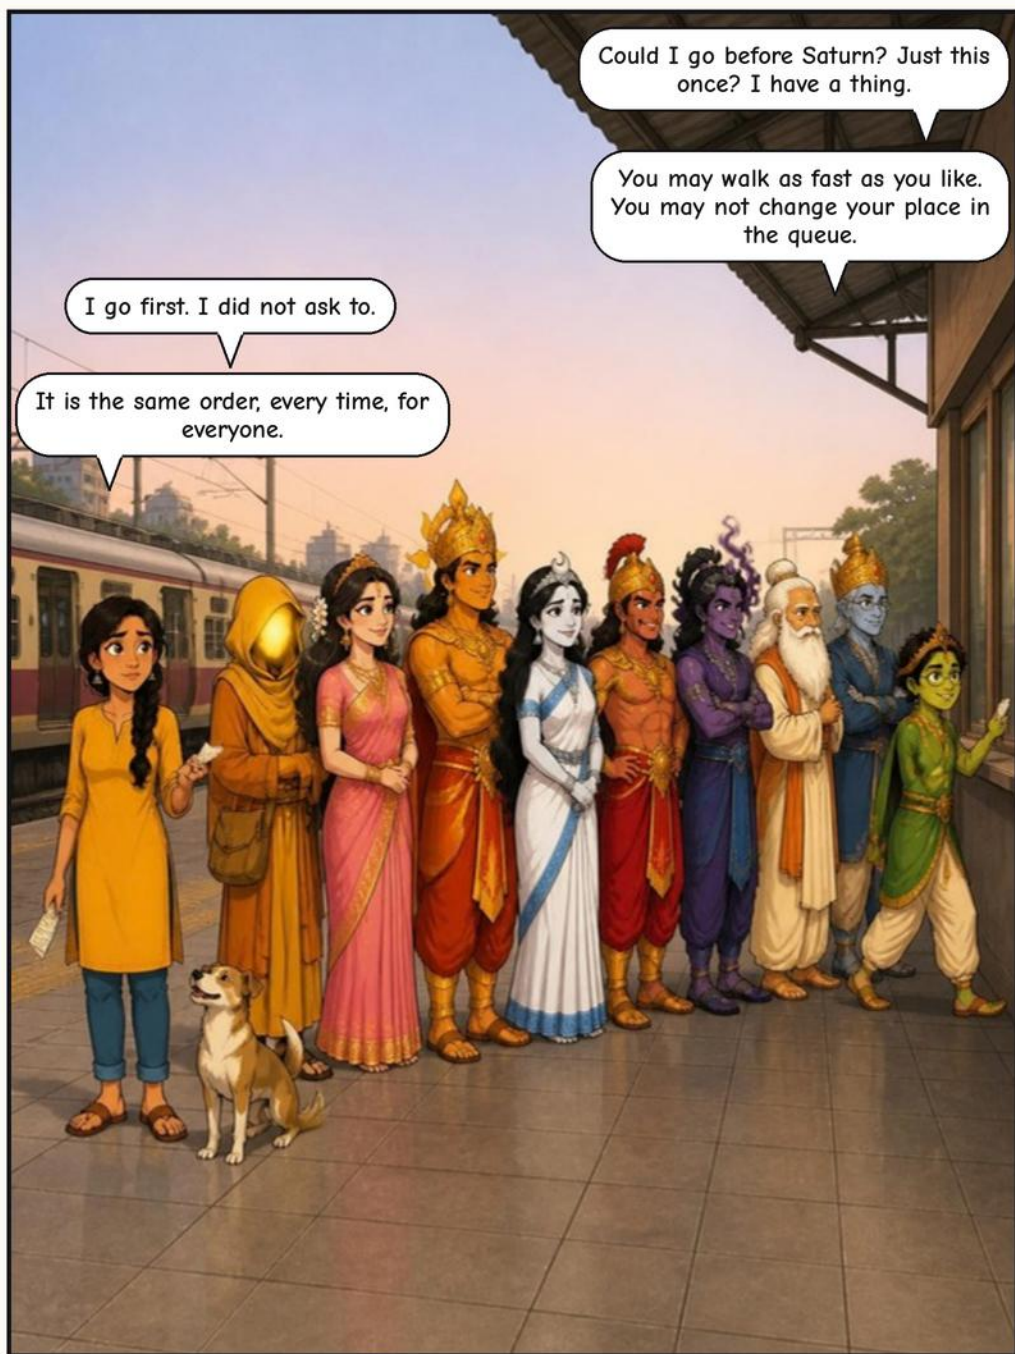

Each of them gets a fixed number of years, and it is written in the contract. You never saw the contract.

THE THREE NOBODY WARNED YOU ABOUT

Saturn makes you do the thing, Rahu wants everything, and Ketu takes the toaster. Nineteen, eighteen and seven years, in that order.

HOW THE TURNS WORK

Ketu, Venus, Sun, Moon, Mars, Rahu, Jupiter, Saturn, Mercury, then Ketu again. Nobody knows why, and nobody skips a turn.

mahadasha = season (the manager): the years when one planet runs your life.

SHORT TERMS, LONG TERMS

Venus, Saturn and Rahu take almost half the cycle between them. Sun, Ketu and Mars share one sixth.

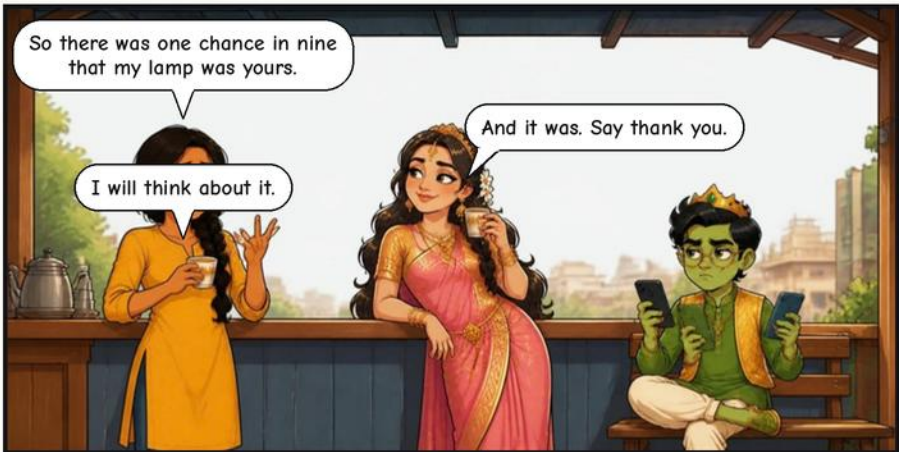

WHO GOES FIRST FOR YOU

The Moon's path round the sky has twenty-seven stars. The star she stood in when you were born picks your first manager.

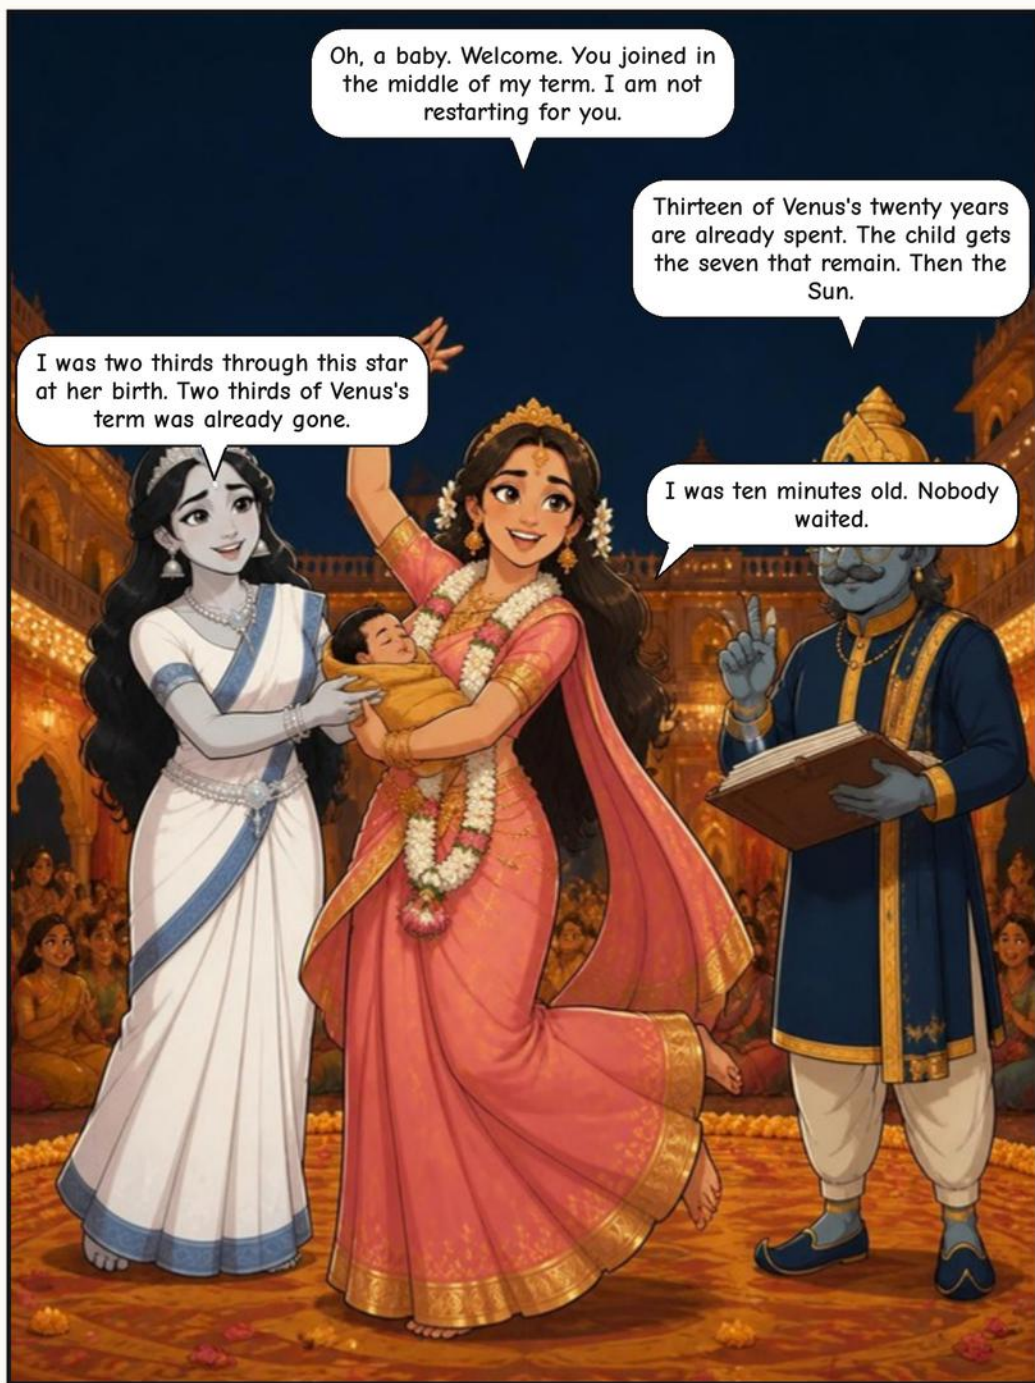

nakshatra = the Moon's star; one of the twenty-seven equal stretches of the Moon's path round the sky.

TWENTY-SEVEN LAMPS, NINE OWNERS

Nine owners, three stars each, in the same fixed order. Whoever owns the Moon's star that night is your first manager.

YOU JOIN A SEASON ALREADY RUNNING

Oh, a baby. Welcome. You joined in the middle of my term. I am not restarting for you.

Thirteen of Venus's twenty years are already spent. The child gets the seven that remain. Then the Sun.

I was two thirds through this star at her birth. Two thirds of Venus's term was already gone.

I was ten minutes old. Nobody waited.

You join a season already running. However much of the Moon's star was left is how much of your first term you get.

ASK YOUR MOTHER TWICE

An hour's error in the birth time shifts every changeover by months. Ask your mother twice, and ask for the hospital record.

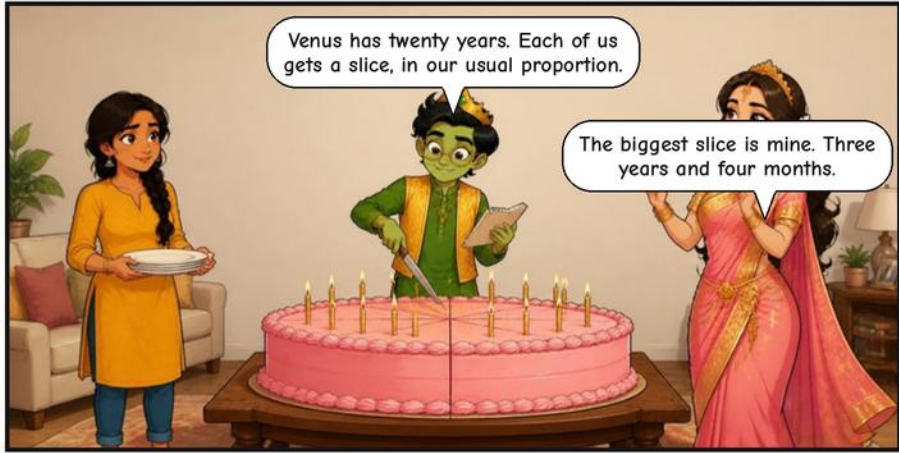

THE MANAGER HAS DEPUTIES

Inside each manager's term, all nine take turns as deputy, in the same order, starting with the manager herself.

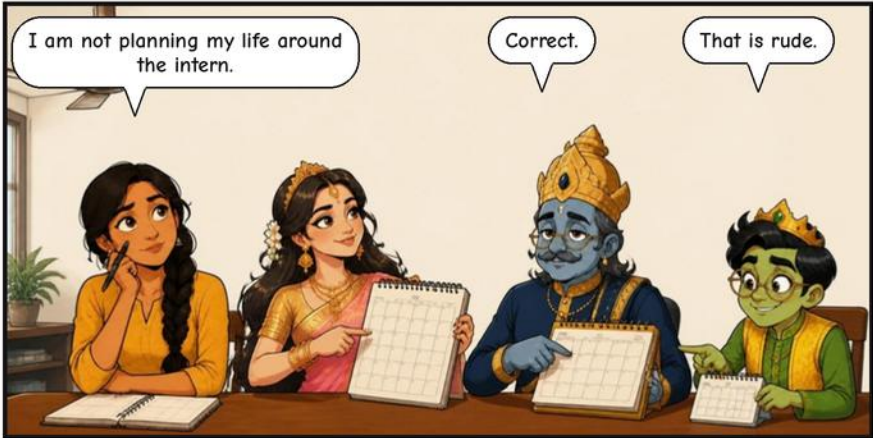

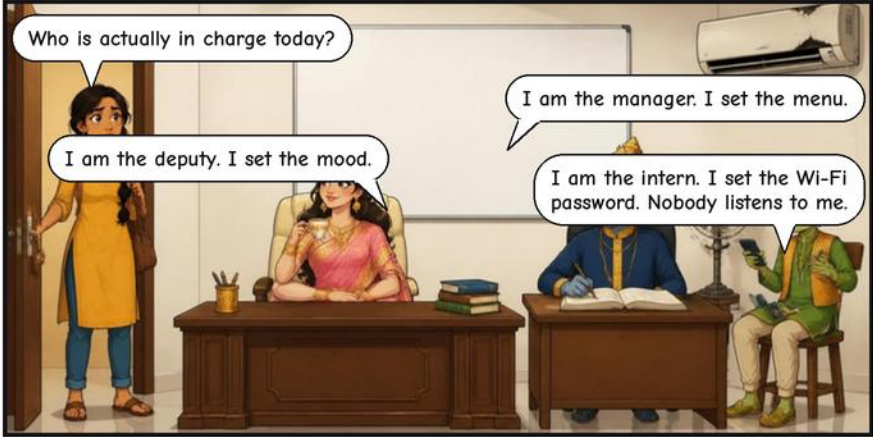

antardasha = sub-season (the deputy): the stretch inside a season run by a second planet beside the first.

THE DEPUTY'S SHARE

A deputy's time is the manager's years times the deputy's years, divided by 120. Rahu's slice of any season is fifteen per cent.

INTERNS: THE DEPUTY'S DEPUTY

Manager, deputy, intern: a chapter, a scene, a sentence. Each deputy's turn splits into nine intern turns, so do not plan at intern level.

pratyantardasha = sub-sub-season (the intern): the deputy's stretch split once more, by the same rule and order.

READING THE APP

The outer row is the manager and the indented row under it is the deputy. People frighten themselves nine times a season.

THE WHOLE MACHINE, IN ONE BOX

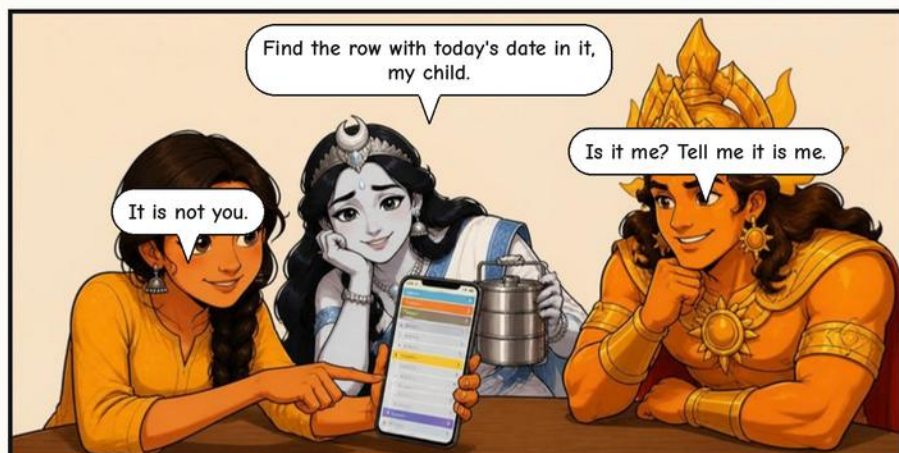

- The order and the years, always the same: Ketu 7, Venus 20, Sun 6, Moon 10, Mars 7, Rahu 18, Jupiter 16, Saturn 19, Mercury 17. Total 120 years.
- The Moon's star at birth picks the first manager. The first term is cut short in proportion to how far the Moon had already gone through its star. Every term after that runs full length.
- Inside each term the nine take turns as deputy, same order, starting with the manager, each for (manager's years times deputy's years) divided by 120.
- Venus's 20 years, split among the deputies: Venus 3y 4m, Sun 1y, Moon 1y 8m, Mars 1y 2m, Rahu 3y, Jupiter 2y 8m, Saturn 3y 2m, Mercury 2y 10m, Ketu 1y 2m.
- Each deputy's turn splits once more, the same way, into nine intern turns of weeks to months.
- How a season lands on you in particular depends on the chart underneath: the twelve rooms counted from your rising sign, and which room each planet sits in. Part 2 shows where each one sits.

Nine managers in a fixed order, a start the Moon's star picks, a short first term, then deputies in proportion. That is all.

bhava = room (one of the twelve rooms of a birth chart) · lagna = rising sign (the sign coming up on the eastern horizon when you were born)

HOW TO FIND YOURS (THE APP)

Three birth facts, a free app, the right settings, then the row holding today's date. Write down manager, deputy and both end dates.

HOW TO FIND YOURS (THE NOTE)

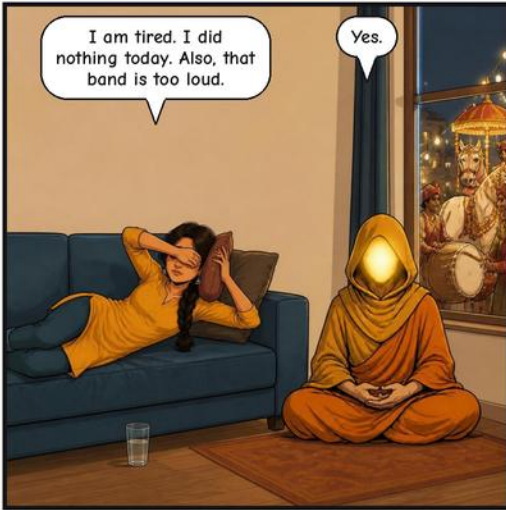

One sticky note: your manager, your deputy, and when each leaves. The rest of this book talks to that note.

KETU TAKES THE KEYS

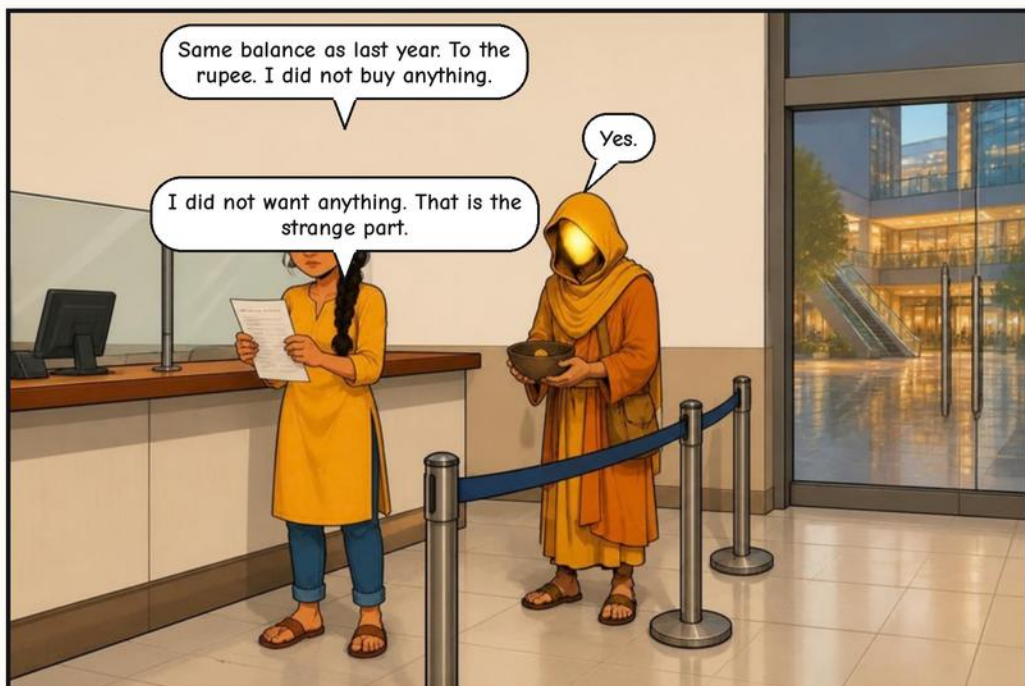

Ketu runs seven years and builds nothing. Judge him by what you put down, not by what you pick up.

HOW THE KETU SEASON FEELS

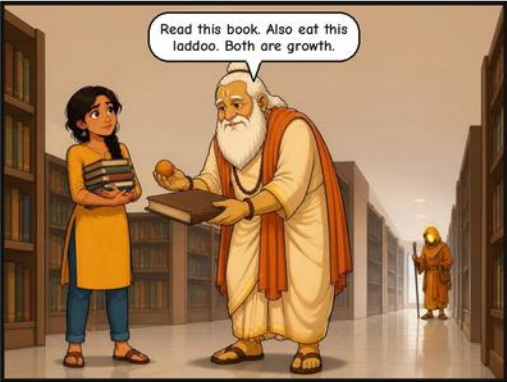

Tired for no reason, a house that empties, love without hunger, a desk nobody looks at. Nothing is wrong: Ketu is clearing space.

MONEY AND MIND IN KETU'S SEASON

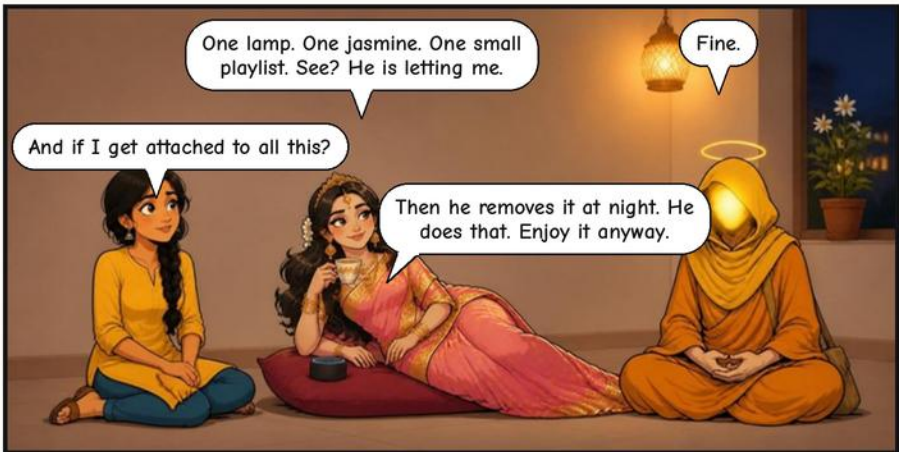

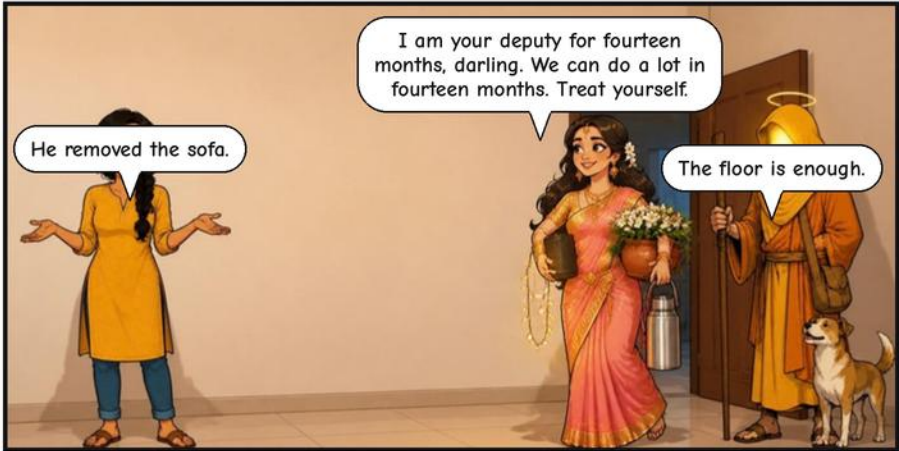

Money goes flat because wants go flat, and the mind steps back a little. Deep work gets easy while small talk gets impossible.

THE OTHER DEPUTIES IN KETU'S SEASON

Six deputies pass through Ketu's bare flat, and Venus and Rahu get their own pages next. The Sun got no applause.

KETU SEASON, VENUS DEPUTY

Venus and Ketu are friends, so she brings one small, real comfort. Keep the jasmine, but do not try to keep the party.

KETU SEASON, RAHU DEPUTY

Rahu always sits exactly opposite Ketu, so his turn is never hidden, always loud. Sleep on every purchase for a month.

WHEN THE DEPUTY GETS THE STOREROOM

Count rooms from Ketu, not from the front door. A deputy in the 6th, 8th or 12th room still helps, late and sideways.

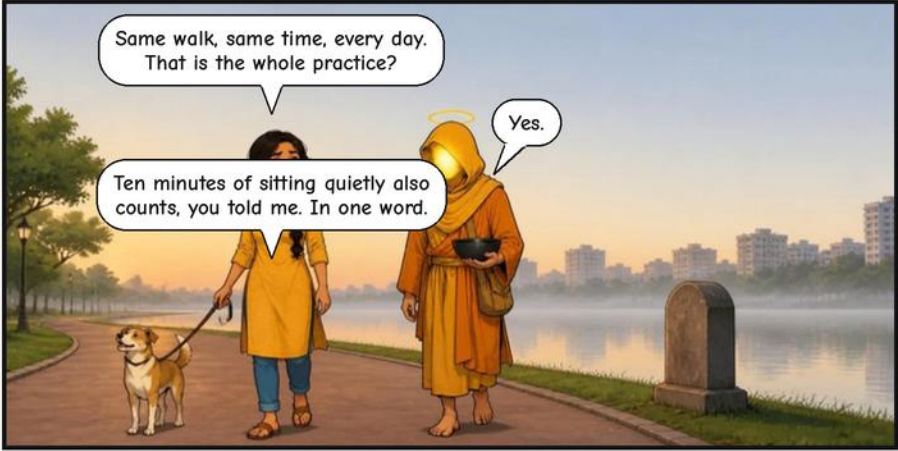

WHERE KETU SITS IN YOUR CHART

- Ketu owns no sign. He borrows the colour of the sign he sits in, and of any planet beside him.
- Aries, Leo and Sagittarius rising: Ketu is on your side in Leo, Aries, Scorpio, Sagittarius and Pisces. He tests you in Taurus, Libra, Capricorn and Aquarius.
- Gemini and Libra rising: Ketu is on your side in Taurus, Libra, Gemini, Virgo, Capricorn and Aquarius. He tests you in Aries, Scorpio, Leo, Sagittarius and Pisces.
- Example: Scorpio rising, Ketu in Leo. Leo belongs to the Sun, and the Sun is on Scorpio's side, so Ketu is too.

Ketu owns no sign, so he behaves like whoever owns the room he sleeps in. Even a friendly Ketu clears things out.

HOMEWORK FOR THE KETU SEASON

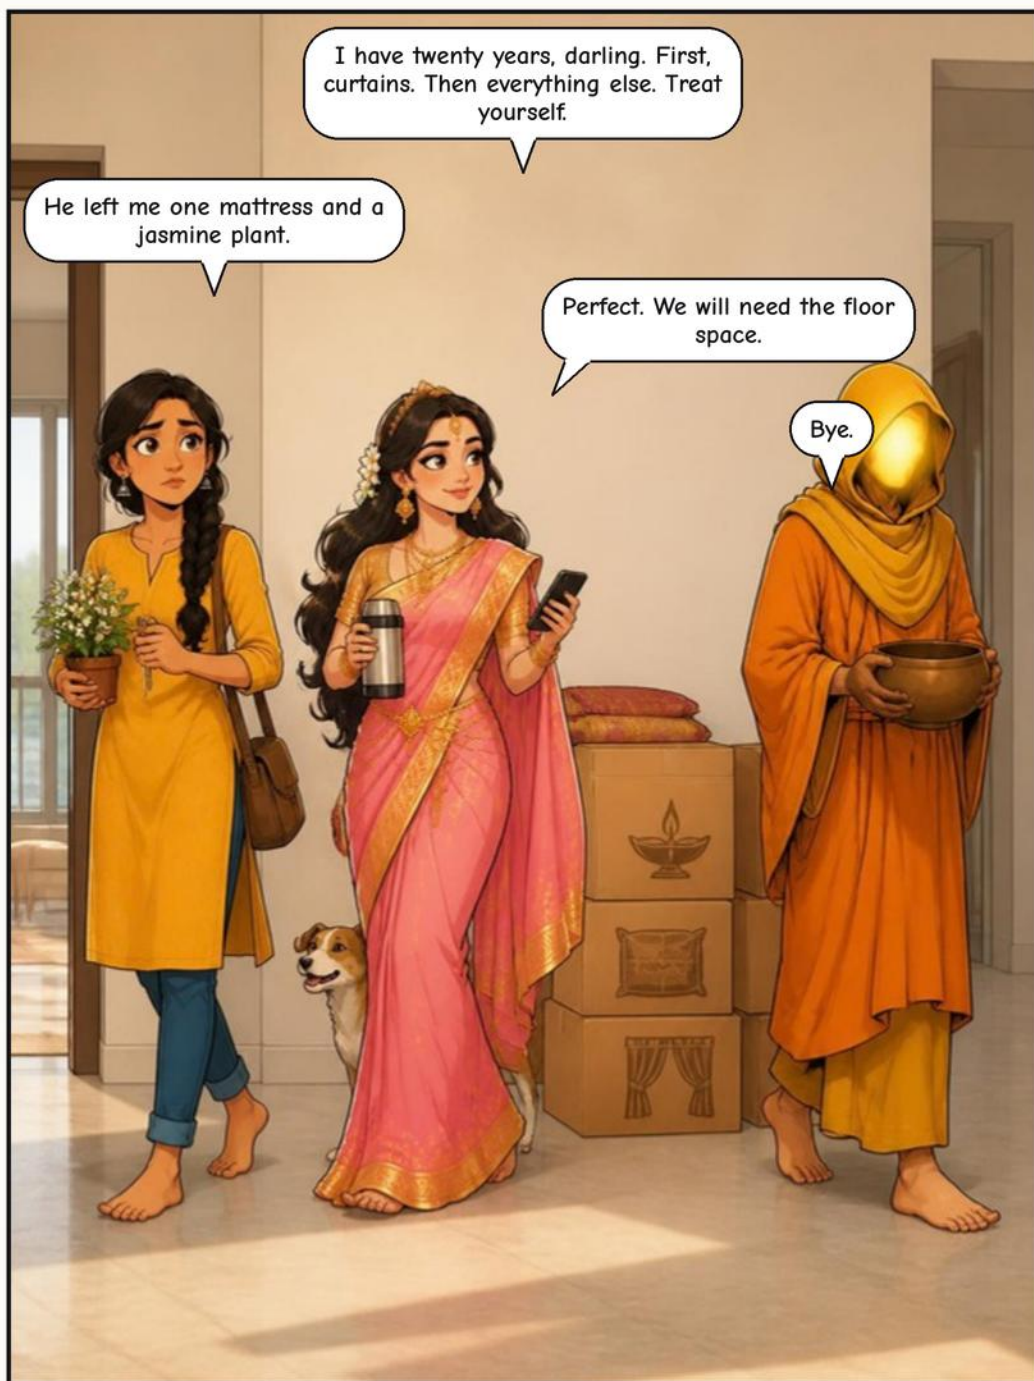

One daily practice, one deep subject, one quiet service. If the quiet comes with sleepless, hopeless days, see a doctor.

LAST YEAR: MERCURY CHATTERS, VENUS WAITS

Mercury is the deputy in Ketu's last year, so plans come back. Do not grab the first bright thing, since Venus brings the rest.

VENUS TAKES THE KEYS

I have twenty years, darling. First, curtains. Then everything else. Treat yourself.

He left me one mattress and a jasmine plant.

Perfect. We will need the floor space.

Bye.

Venus runs twenty years, the longest season, and the house fills. Your job is to keep your shape inside all that comfort.

HOW THE VENUS SEASON FEELS

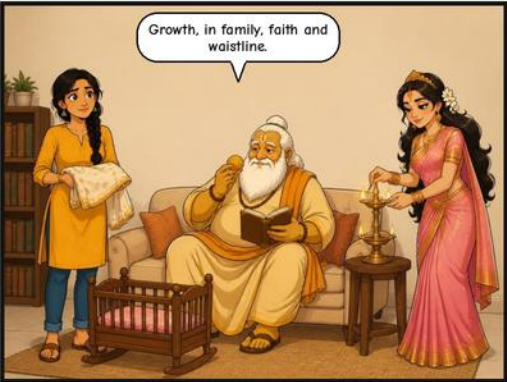

A softer body, a fuller flat, love in season, promotion through charm, all pleasant. The bill arrives around year fourteen.

MONEY AND MIND IN VENUS'S SEASON

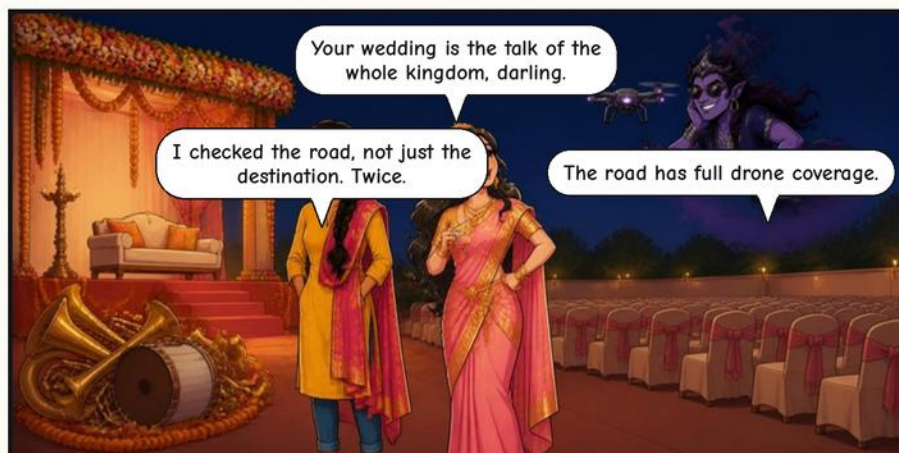

Money grows and goes, and the mind picks peace over winning. Keep a monthly account from year one, because Saturn will ask for it.

THE OTHER DEPUTIES IN VENUS'S SEASON

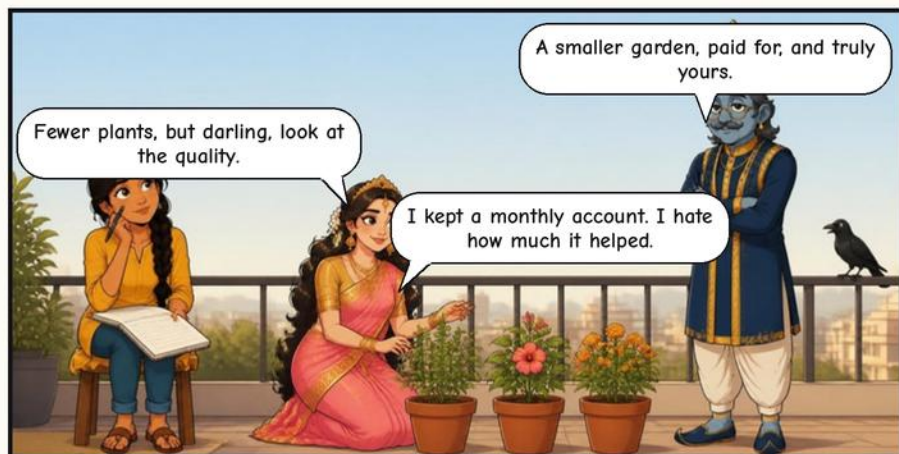

Six more deputies in Venus's full house. Rahu and Saturn, the wedding and the bill, get the next two pages.

VENUS SEASON, RAHU DEPUTY

Venus and Rahu are friends, so he makes her bigger: love by unusual routes, often the wedding itself. Check the road, not the destination.

VENUS SEASON, SATURN DEPUTY

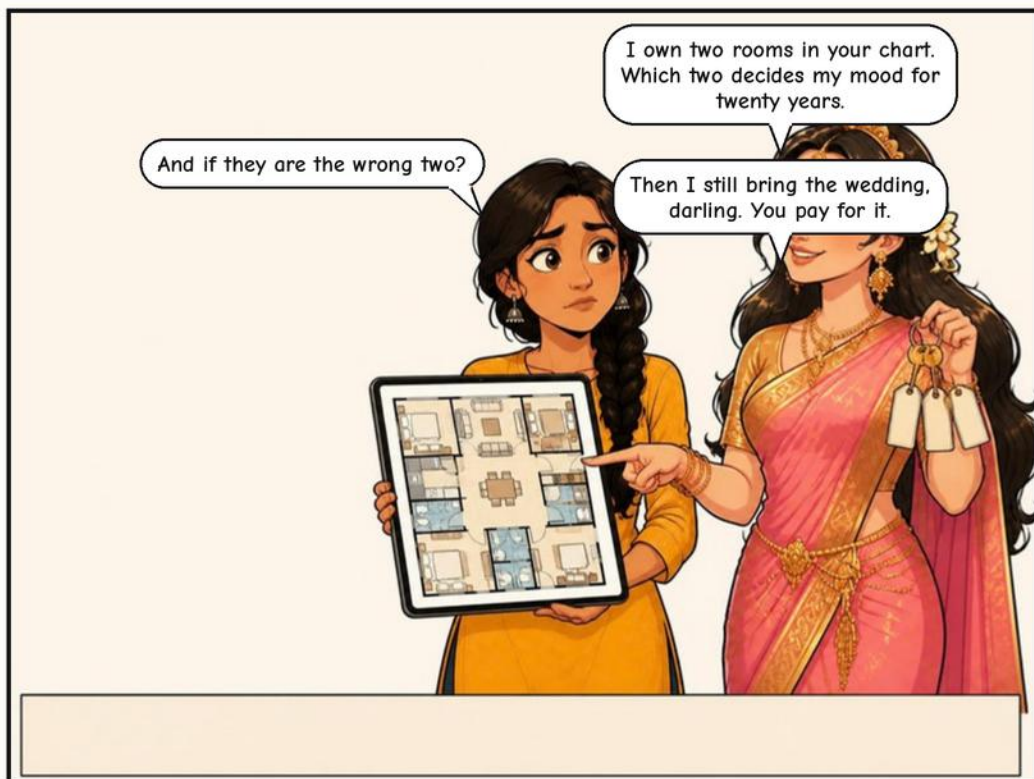

Saturn and Venus are natural friends, so he does not end the bloom. He asks what you can actually afford to keep.

WHEN THE DEPUTY GETS THE WRONG ROOM

Count the deputy's room from Venus. The 6th, 8th and 12th pull against her, while the 1st, 5th and 9th pull with her.

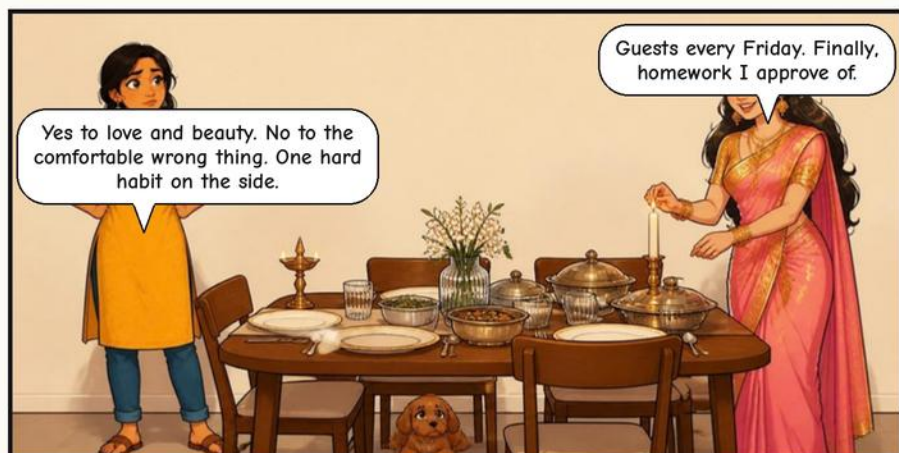

WHERE VENUS SITS IN YOUR CHART

- Venus is on your side for Gemini and Libra rising. She is your best planet for Virgo, Capricorn and Aquarius rising.
- Venus tests you for Aries, Cancer, Leo, Scorpio, Sagittarius and Pisces rising.
- Mixed for Taurus rising.
- The verdict comes from the two rooms Venus owns for your rising sign. If she owns room 1, 5 or 9, she is on your side. If she owns room 3, 6 or 11, she tests you.

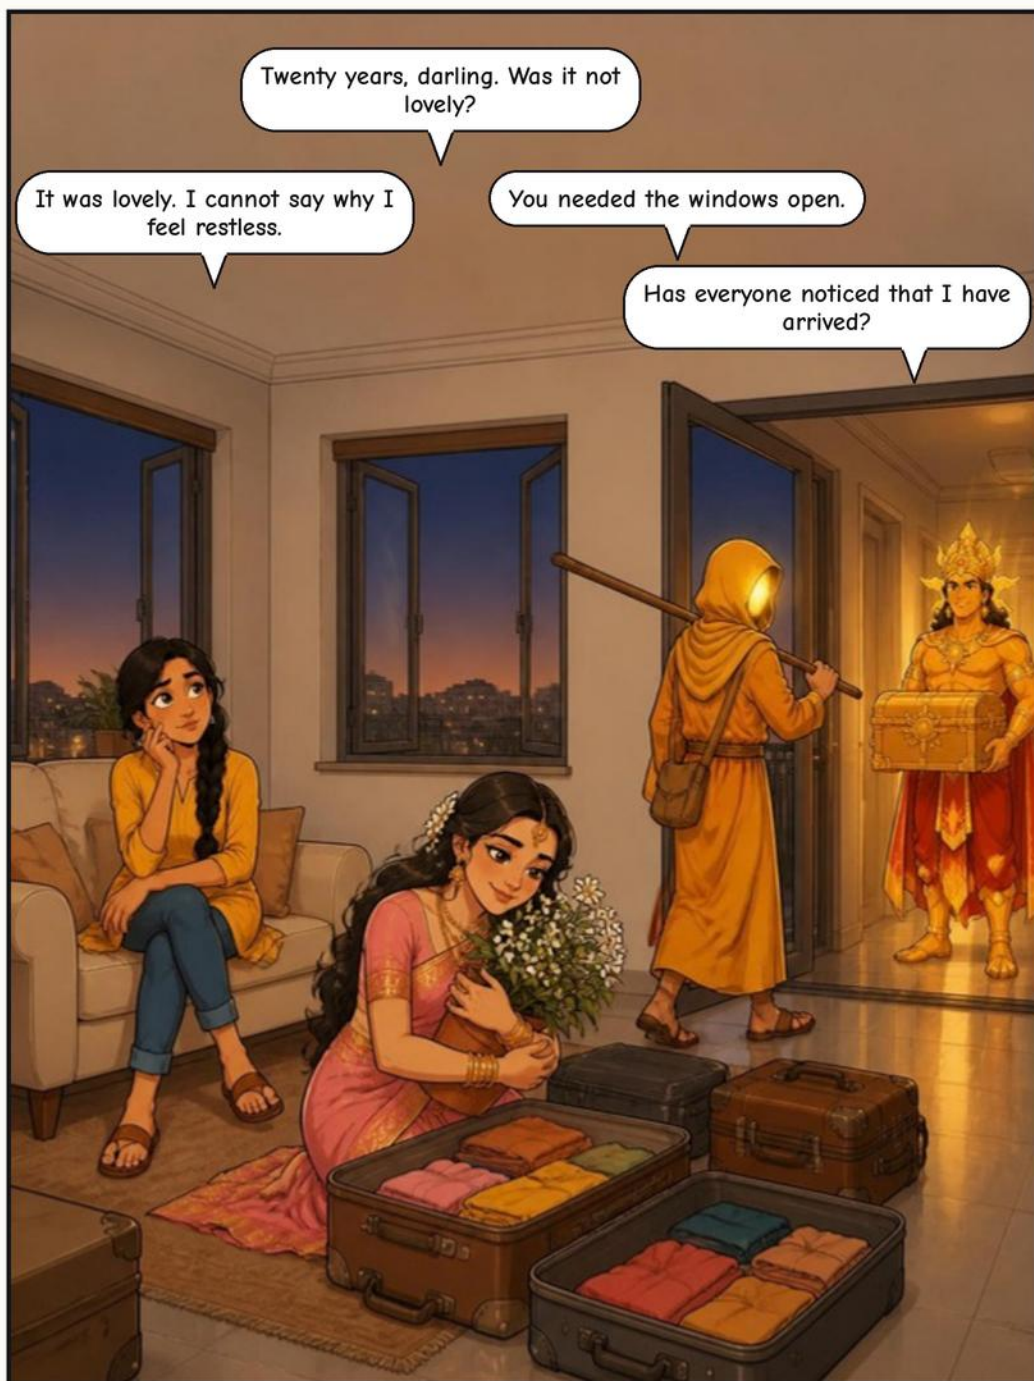

A Venus who tests you does not take love away. She brings the same wedding and attaches the bill.

HOMework FOR THE VENUS SEASON

Say yes to love and beauty, but keep one habit that has nothing to do with either. Softness is the only danger.

LAST YEAR: KETU OPENS THE WINDOWS

Twenty years, darling. Was it not lovely?

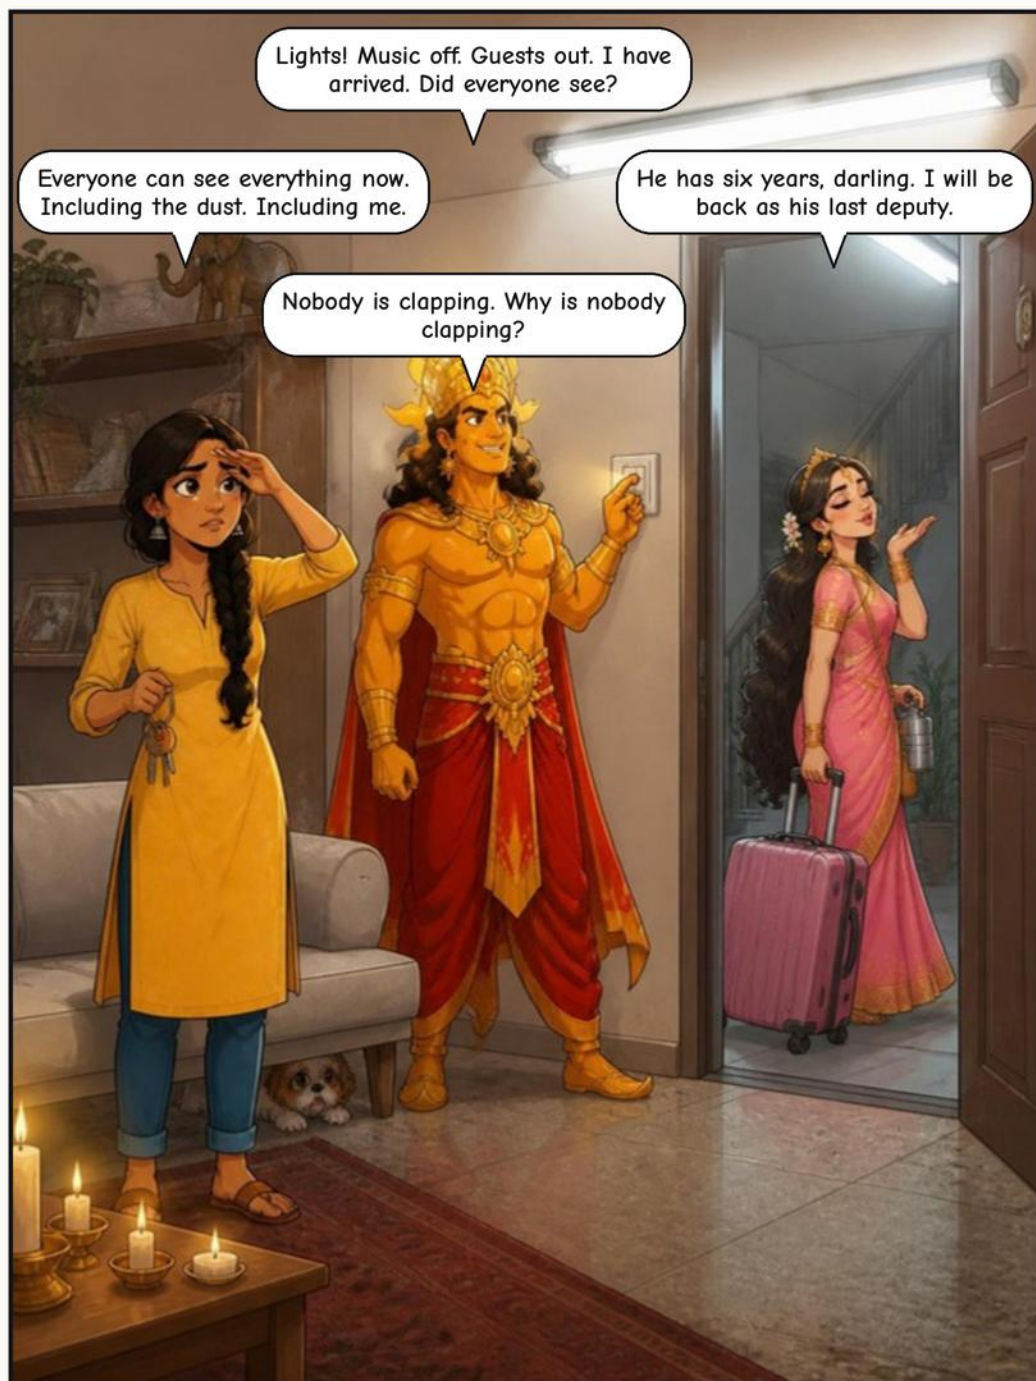

It was lovely. I cannot say why I feel restless.

You needed the windows open.

Has everyone noticed that I have arrived?

Ketu is the deputy in Venus's last year, so something comfortable gets set down. The Sun will ask who you are without it.

THE SUN TAKES THE KEYS

The Sun runs six years, the shortest season. The question on the floor: who are you when nobody is clapping?

HOW THE SUN SEASON FEELS

A warmer body, tired by evening, your father at the centre, love wanting respect. Work is visible: good work gets promoted, poor work exposed.

MONEY AND MIND IN THE SUN SEASON

Money comes through position, not pleasure, and leaves on keeping up appearances. The mind gets clear and proud, and pretence stops working, yours included.

THE OTHER DEPUTIES IN THE SUN SEASON

Six deputies in the King's bright flat. Rahu and Saturn, the eclipse and the audit, get the next two pages.

SUN SEASON, RAHU DEPUTY

Rahu swallows the Sun: the eclipse, when you are tempted to become someone else. Wait for the shadow to pass before signing.

SUN SEASON, SATURN DEPUTY

Saturn is the Sun's neglected son, and they cannot stand each other. His turn audits your authority, so do the paperwork.

THE STOREROOM, COUNTED FROM THE SUN

Count rooms from the Sun. A deputy in the 6th, 8th or 12th from him still delivers, but late, sideways or at a cost.

WHERE THE SUN SITS IN YOUR CHART

- The Sun is on your side for Aries, Taurus, Leo, Scorpio and Sagittarius rising.
- The Sun tests you for Gemini, Libra and Pisces rising.
- Mixed for Cancer, Virgo, Capricorn and Aquarius rising.
- The Sun owns one sign, Leo, so he owns one room for your rising sign. That room decides.

The Sun owns one room for your rising sign: one room, one verdict. A Sun who tests you makes the seeing uncomfortable.

HOMEWORK FOR THE SUN SEASON

Ask for the title, call your father, walk at sunrise. Pride is the shadow, and Saturn's year collects on it.

LAST YEAR: VENUS RETURNS, THE MOON WAITS

That costs me something. Fine. Did everyone see me allow it?

Six years are done. I know what I am for. Also, I am hungry.

The kingdom found itself. Now, darling, let someone else matter.

Have you eaten? I brought two tiffins. Enough for ten years.

Venus is deputy in the Sun's last year, softening it at a cost to the ego. The Moon's ten years wait in the hallway.

THE QUEEN MOTHER TAKES THE KEYS

My six years are over. Here are the keys. Did everyone see what I did?

Who sleeps here? Who cooks for them? When did you last call your mother?

It is eleven at night.

So you have not eaten.

The Moon's turn lasts ten years. The Sun measured his years in applause; she measures hers in who got fed.

HOW THE MOON SEASON FEELS

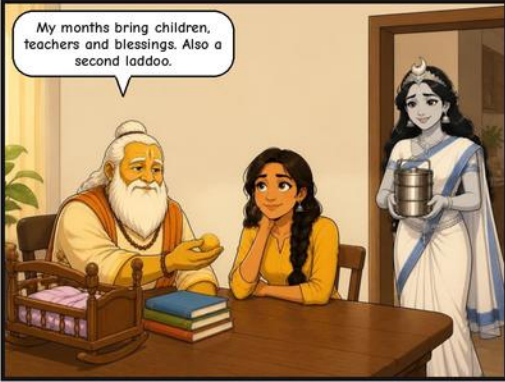

Body, home, love, work: in the Moon's ten years, all four come down to who looks after you.

MONEY AND MIND

Money flows to the household and saving gets emotional. The mind is not worse, only more tidal, in and out.

THE MOON'S DEPUTIES, SIX AT A GLANCE

Venus, the longest deputy at a year and eight months, furnishes the house. The Sun's six months warm it.

MOON SEASON, RAHU AS DEPUTY

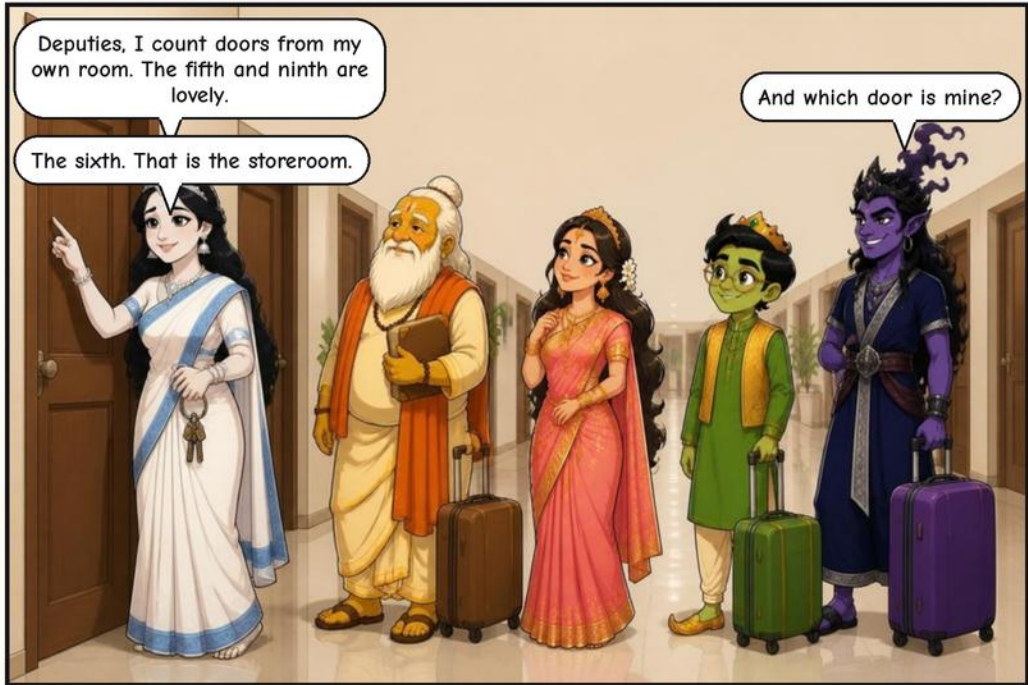

Rahu unsettles the household and widens the table. Keep your sleep and you keep the good recipes.

MOON SEASON, SATURN AS DEPUTY

Saturn audits the household: duty, tiredness, care. Protect your sleep, keep a routine, and carry nobody who can walk.

THE WRONG ROOM

Count the deputy's door from the Moon's. The sixth, eighth or twelfth is the storeroom, and that deputy's sub-season wobbles.

WHERE THE MOON SITS FOR YOU

- On your side: Cancer, Scorpio and Pisces rising.
- Tests you: Taurus, Virgo, Capricorn and Aquarius rising.
- Mixed: Aries, Gemini, Leo, Libra and Sagittarius rising.
- A bright Moon at birth (growing, far from the Sun) steadies the decade. A dark Moon asks you to protect your sleep.

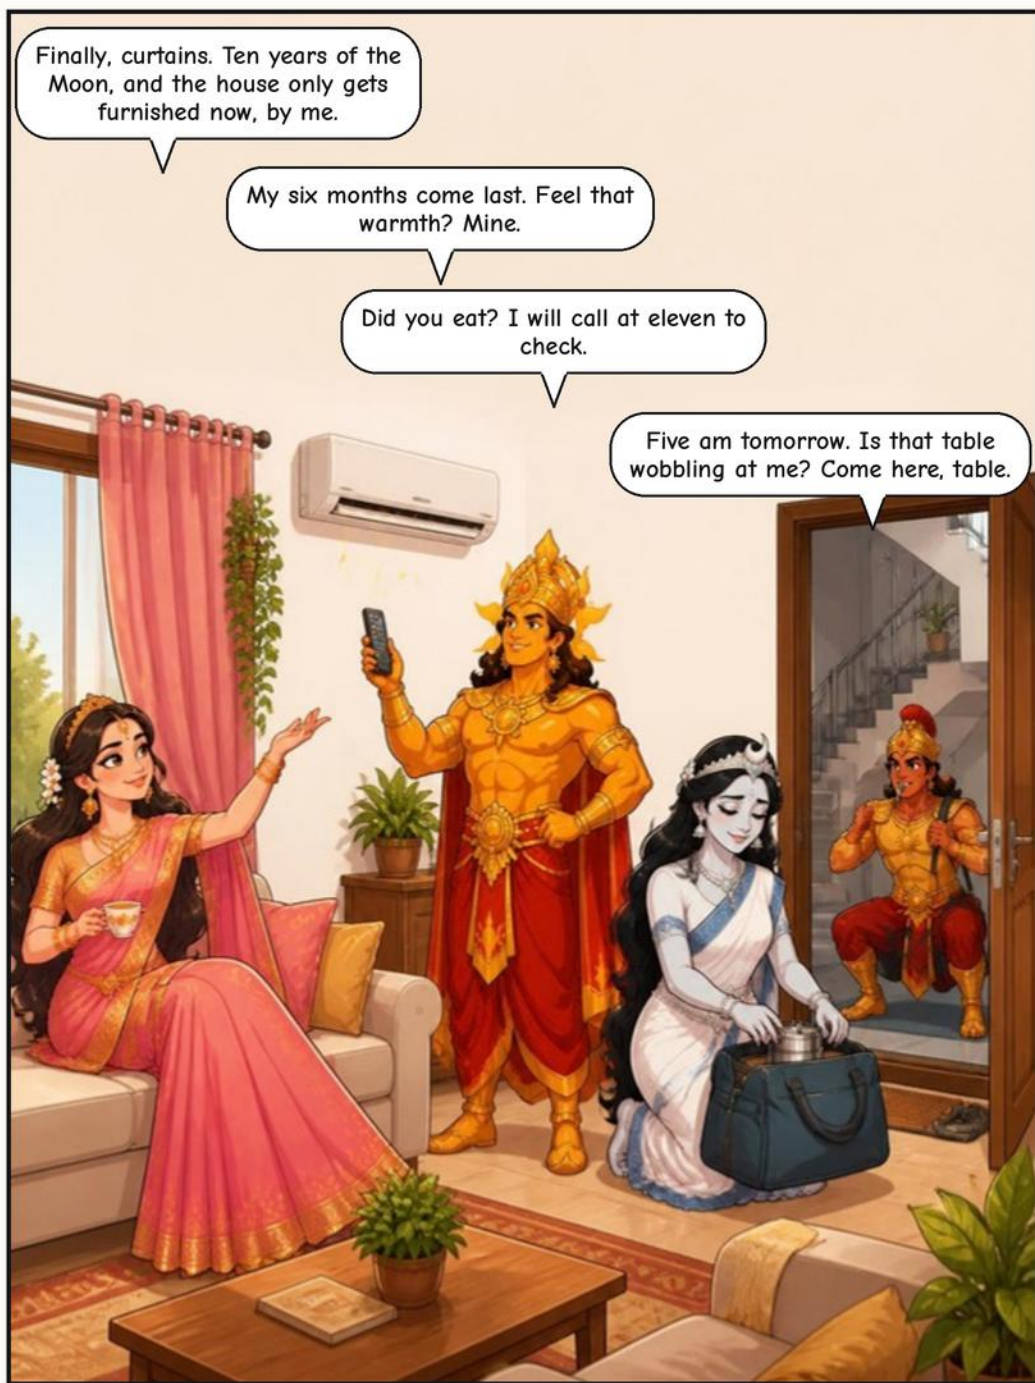

'Tests you' means a hard room's matters come to the front for ten years. That is work, not punishment.

THE MOON'S HOMEWORK

Sleep like it is a job, tend your mother and your home, and face people at work. Do not isolate.

LAST YEAR: MARS IN THE HALLWAY

Venus softens the Moon's last years, the Sun warms them, and Mars, next in line, is already fighting your furniture.

THE COMMANDER TAKES THE KEYS

Mars's turn lasts seven years: he builds, defends and fights, in that order of value. Your job is to choose the fights.

HOW THE MARS SEASON FEELS

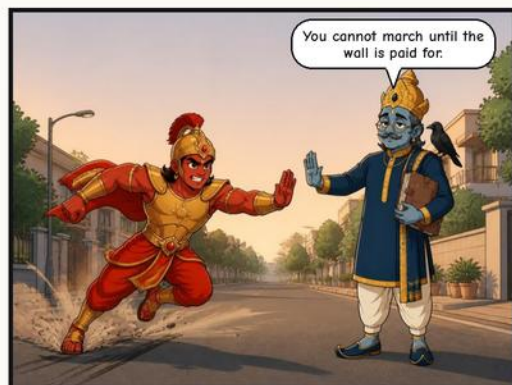

Body, home, love, work: in Mars's seven years, everything that was 'someday' becomes 'now', including the argument.

MONEY AND MIND

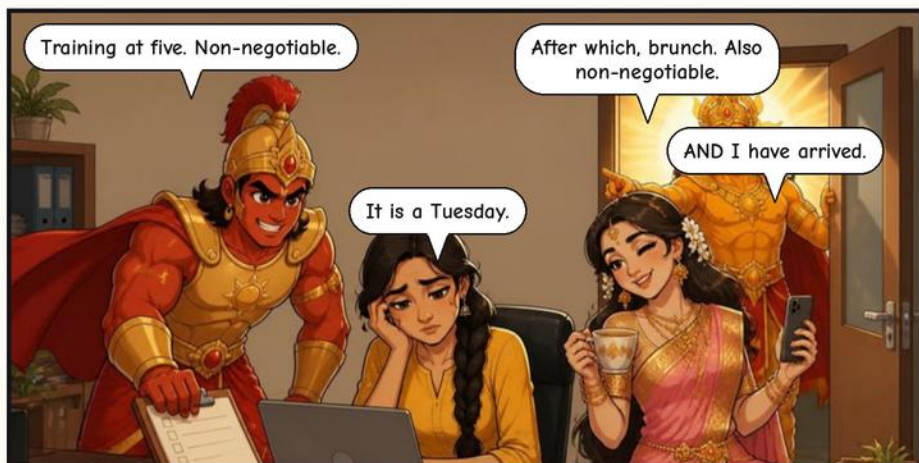

Mars spends on action and thinks in verdicts. Impatience and clarity arrive on the same train.

MARS'S DEPUTIES, SIX AT A GLANCE

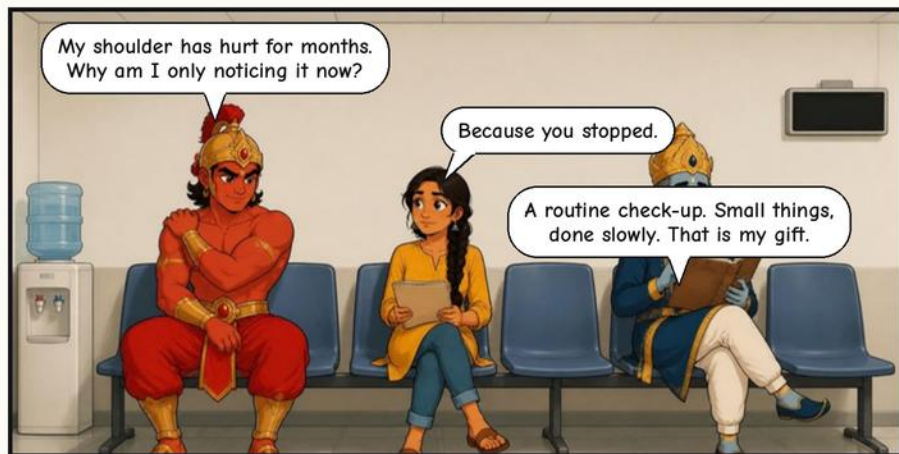

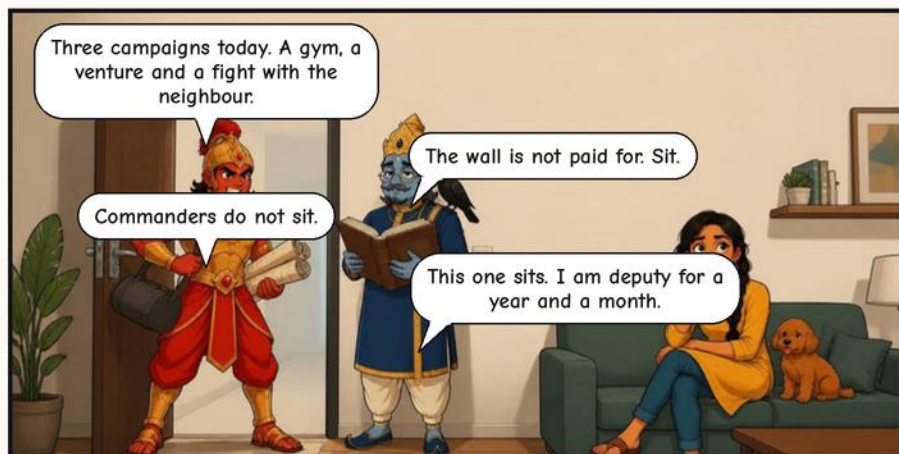

The Sun's four months then bring recognition for what was built. The Moon's seven months cool the house before Rahu's turn.

MARS SEASON, VENUS DEPUTY, SUN INTERN

Manager, deputy, intern. Your week is whatever the three of them agree on, which is nothing.

MARS SEASON, SATURN AS DEPUTY

Accelerator and brake pressed together. Saturn stops the Commander so the body and the accounts can catch up.
